Restrains Voliva Or Agents From Dissipating  
Any Of Zion City Finances.

## DOWIE INDIVIDUALLY IS INSOLVENT

This Last Order, However, Does Not Go Into Effect Until  
Tomorrow--The Decision Is Far  
Sweeping.

[BY ASSOCIATED PRESS.]  
Chicago, May 22.—Federal Judge Landis today issued an order which practically ties up all the Zion City interests until the courts have had time to fully go into the claims of both the Dowie and the Voliva factions.

## MANY CONVENTIONS ARE ON

Indiana G. A. R. Lafayette, Ind., May 22.—Lafayette threw her gates wide open today to the war veterans and other visitors come to attend the annual state encampment of the G. A. R. and the meetings of the various allied organizations. Today was given over to the preliminary work of organization, the reception of delegates and the distribution of badges. Tonight the Women's Relief Corps gives its customary reception in honor of the veterans. Among the notable visitors will be Governor Hanly and "Corporal" Tanner, commander-in-chief of the Grand Army. The business sessions will begin tomorrow morning. Four active candidates are out for the office of department commander and a spirited race is on. The candidates are: Dr. A. R. Tucker of Noblesville, Byron R. Russell of Crawfordsville, John D. Alexander of Bedford, and E. R. Brown of Monticello. The council of administration held a meeting this afternoon at its headquarters at the Lathrop hotel.

Illinois G. A. R. Galesburg, Ill., May 22.—Galesburg was swathed in red, white and blue today in honor of the war veterans and their friends who have gathered by hundreds from all parts of the state to attend the annual encampment of the G. A. R. of Illinois. The old soldiers will have possession of the city for three days and nothing is being left undone that might contribute to their pleasure and entertainment. The unveiling this afternoon of a memorial to "Mother" Bickerdyke, Illinois' famous army nurse, made this one of the notable days of the encampment. The exercises took place in the Central church. The encampment proper will open tomorrow morning and will be followed in the afternoon by the annual parade.

Kansas Bankers Wichita, Kan., May 22.—Representatives of banking and trust companies having an aggregate capital of millions of dollars are gathered in Wichita for the nineteenth annual meeting of the Kansas Bankers' association. As a preliminary to the business sessions, which begin tomorrow, a reception in honor of the visitors is to be given at the Chamber of Commerce tonight. The program is one of the best ever arranged for a meeting of the association. Prominent among those scheduled to address the convention are Governor Hoch, Hon. Joseph L. Bristow, and John L. Hamilton, president of the American Bankers' association.

Indiana Prohibitionists Indianapolis, Ind., May 22.—Nearly every county of Indiana is fully represented by the delegates and other visitors in Indianapolis for the prohibition state convention. The gathering continues two days, today being devoted to preliminary conferences and organization. The party will make nominations for the state of

his attorneys, agents or employees from in any manner dissipating the assets of Zion City. This practically restrains the Voliva faction from handling the finances of the colony in any manner except for the necessities.

Dowie Insolvent An order declaring Alexander Dowie, individually, to be insolvent was entered by the court, but is not to become effective until tomorrow.

Georgia Druggists Atlanta, Ga., May 22.—The fourteenth annual meeting of the Georgia Pharmaceutical association, which began here today, is one of the largest in point of attendance ever held by the association. The sessions will continue two days, and will be devoted to the discussion of numerous matters of live importance to the trade. Max Morris of Macon is the presiding officer of the convention.

Surgeons in Charleston Charleston, S. C., May 22.—A distinguished gathering of medical men filled the assembly hall of the Charleston hotel this morning at the opening of the eleventh annual meeting of the surgeons of the Southern railway. The surgeons present came from the states of Florida, Virginia, Illinois, Mississippi, New York, Georgia, Alabama, North Carolina, Tennessee, Indiana and South Carolina. Dr. T. P. Scatterwhite of Louisville, president of the association, called the meeting to order and delivered his annual address. Mayor Rhoten extended a cordial welcome to the visitors, for whom response was made by Dr. G. R. Dean of Spartanburg. The association will remain in session three days, during which time many subjects relating to the work of the railway surgeon will be discussed.

Missouri Democrats Excelsior Springs, Mo., May 22.—The Democrats of Missouri assembled in convention here today to name a judicial ticket. The regular state nominating convention will be held at Jefferson City two weeks hence.

## STRANGE FACTS TOLD ABOUT THE ACCIDENT

It Now Appears That Lemke Was Lying  
Across the Tracks

When Killed. According to the report given by the railroad officials to the railroad commission, William Lemke, who was killed south of the city yesterday morning, was lying across the track when struck by the train. The following is the official report of the accident as prepared according to law: "Report to Railroad Commission of Wisconsin. This day about 10:40 a. m. train number 142, H. A. LaRoy, conductor, and P. G. Cleveland, engineer, while passing a point one and a half miles east of Janesville struck and instantly killed William Lemke. He was lying on the track with his head on the rail and left arm across the rail, about sixty feet of the crossing, on the right-hand side of the track. The pilot struck and smashed in his head and the body when picked up was warm. The train was running about thirty miles an hour. Engineer did not see him in time to stop. The remains were taken to the Rock River tower by train number 142 and then removed from there by the Janesville authorities to Kimball's undertaking establishment in the city of Janesville. There was no evidence of foul play or intoxication. J. F. G."

[BY ASSOCIATED PRESS.]  
Rome, May 22.—The improvement in the condition of the Pope continues.

Texas Presbyterian College. Milford, Texas, May 22.—Commencement week at the Texas Presbyterian College for girls opened today and will continue until the end of the present month. The list of graduates this year is larger than any previous year, numbering thirty in different departments. The baccalaureate sermon will be delivered Sunday by Rev. Robert E. Vinson, D. D. of Austin. Rev. Ray Dobyns, D. D. of St. Joseph, Mo., has accepted an invitation to deliver the commencement address.

More Americans will go abroad this year than ever before. It is also stated that these tourists will spend very lavishly.—News Item.

## RAILROAD REFUSED A DEMURRER BY COURT TEACHERS NAMED FOR COMING YEAR

The Burlington Road Must Now Stand  
Trial for Granting Rebates  
to Shippers.

[BY ASSOCIATED PRESS.]  
Kansas City, May 22.—Judge Smith of Moberly, Mo., sitting in the place of Judge Phillips in court, overruled the demurrer of the Burlington railway to the indictments against the officials of that company and they must now go to trial. The defendants contended that congress was without power to enact legislation regulating the export rates in the giving of alleged rebates on which the Burlington was charged with having violated the interstate commerce act.

## SENATOR BURTON IS UNDER FIRE TODAY

Senate Committee on Privileges and  
Elections to Take  
Action.

[BY ASSOCIATED PRESS.]  
Washington, May 22.—The Senate today directed the committee on privileges and elections to investigate the effect of yesterday's Supreme Court decision in the case of Senator Burton of Kansas. The resolution was offered by Senator Hale and was adopted without delay.

## ANOTHER CALL FOR THE REV. DENISON

Word Comes From Reliable Source  
That It Is to Be Expected  
Within Two Weeks.

Quite as certain as any forecast which has not been fulfilled is the prophecy that within two weeks' time a Congregational church in one of the largest cities of the United States will open negotiations with a Janesville minister with the aim in view of calling him to its pulpit. Should he accept his sermons will doubtless be heard by foreign ambassadors, by many, if not all, of the great American statesmen of this age, by the President of the United States, Supreme Court judges, senators and representatives. The Gazette has received this intimation from a reliable source, but is not allowed to divulge even the name of the city. As to the identity of the latter, however, the foregoing is calculated to convey a broad hint. Rev. Robert C. Denison, himself, does not know that such a movement is in progress. At least, the Gazette is so led to believe by its informant. The selfish friends in and out of his congregation will sincerely hope that nothing will come of this prophecy, but the outlook is very dark for them.

Music Festival at Bonn. Berlin, May 22.—A two days' music festival opened at Bonn today in commemoration of the fiftieth anniversary of the death of Schumann, the celebrated composer. The orchestra of the Berlin Philharmonic society and a number of noted soloists are taking part. Joachim, assisted by a local conductor, Gruters, is directing the concert.

Small Blaze: The fire department was called out for a shed fire on the old Mitchell property on the corner of Academy and Milwaukee streets shortly after three this afternoon.

## BLUE RIBBON DOGS OF T. LAWSON SOLD

Famous Kennel Animals of Frenzied  
Finance Author Offered at Read-  
ville Track, Boston.

[SPECIAL TO THE GAZETTE.]  
Boston, Mass., May 22.—The famous kennel of dogs owned by Thomas W. Lawson was placed on sale today at the Readville trotting track. The kennels comprise some of the best known dogs in America, among them prize-winning English bulldogs, Prince Charles spaniels, Dalmatians, Blenheim spaniels, King Charles spaniels, Ruby spaniels and Boston terriers.

## WILL WELCOME THE GRECIAN VISITORS

American Athletes, Who Competed in  
Olympian Games, Will Be Elabo-  
rately Banqueted.

[SPECIAL TO THE GAZETTE.]  
New York, May 22.—A majority of the members of the victorious American Olympic team which competed in the recent international games at Athens are due to reach here tomorrow and a rousing welcome is being prepared for them. Members of the New York A. C., the Irish-American A. C., and other athletic organizations of the metropolis have chartered a tug and will meet the arrivals down the bay. During the remainder of the week there will be a round of banquets in honor of the visitors and it is probable that the individual athletes will be presented with other testimonials of a more substantial nature.

## JOHN MURPHY AND MISS ROSE RILEY

Were Happily Wedded by Rev. J. J.  
McGinnity at 8:30 This  
Morning.

At St. Mary's church at half-past eight o'clock this morning the wedding of Miss Rose A. Riley, daughter of Mr. and Mrs. Patrick Riley of Leyden, and John Murphy of Des Moines, Ia., was solemnized by Rev. J. J. McGinnity. The young couple and their friends departed immediately after the ceremony for Leyden, where a wedding breakfast was served to a large company of invited guests at half-past ten o'clock.

Mecklenburg Celebration. Charlotte, N. C., May 22.—The second day of the celebration here of the anniversary of the Mecklenburg declaration of independence was marked by a big military parade. The participants included civil war veterans, state troops and representatives of the several branches of the regular service from Fort Myer, Fort McPherson and other army posts.

W. J. Mosher Fined: W. J. Mosher, for whom sentence for drunkenness was suspended by Judge Fifield yesterday, appeared in municipal court this morning to answer to a second charge. Mosher said he was not really drunk, but only unwell. He had taken a little liquor to stimulate him in the distress from which he was suffering. He was given the choice of paying a fine of \$4 and costs or spending eight days in jail.

## AGNEW HOSPITAL LIST OF DEAD IS NOW MADE READY

Four New Deaths Were Added To The San  
Francisco Loss Yesterday--Total  
Still Small.

[BY ASSOCIATED PRESS.]

San Francisco, Calif., May 22.—According to a list just completed besides scores of employees and patients injured in the collapsing of Agnew's State hospital, on the morning of the earthquake, there were a hundred and eight killed—eleven employees and ninety-seven patients. Four cases were added to the coroner's list of the earthquake and fire victims in San Francisco yesterday. The total number is now 295.

Later Report

New York, May 22.—Several men were employed in the engine and dynamo rooms of the New York Glucose company's plant at Shady Side, N. J., and were more or less injured today by an explosion of a big steam pipe. The roof of the building was blown off and the wreckage caught fire. Thirty men were at work on the building and had a narrow escape from death. In the confusion which followed the explosion many reports of serious loss of life were spread.

## GLUCOSE PLANT BLOWS UP; MANY PEOPLE INJURED

Accident Occurs At Shadyside, New Jersey...  
Five Hundred in the Building At  
The Time.

[BY ASSOCIATED PRESS.]

New York, May 22.—Six men were killed and fifty others more or less injured today by an explosion in the plant of the New York Glucose company at Shadyside, N. J. It is believed the explosion was caused by a de-

fect in one of the steam boilers. The four-story brick building was completely wrecked and the outbuildings torn to pieces. There were five hundred men in the building at the time and the wives and children who live in the neighborhood were thrown into a panic.

## LA FOLLETTE WILL BACK LENROOT IN THE FIGHT FOR THE GOVERNORSHIP

This Fact Seems Positive Now--Davidson's  
Friends Are Sanguine Of His  
Nomination.

[SPECIAL TO THE GAZETTE.]

Madison, Wis., May 22.—Believing that the integrity of his political machine in Wisconsin depends upon the nomination and election as governor of his choice, Senator La Follette will come into Wisconsin as soon as the session of congress adjourns, and will in various ways assist in the campaign of Speaker I. L. Lenroot for the republican gubernatorial nomination. The senator is already pulling wires from Washington, writing letters to political workers in various parts of the state and sending for publication a telegram warmly praising the recent Lincoln day speech of Speaker Lenroot in Milwaukee. It is said that use is being made in Lenroot's behalf of promises of federal patronage, and this is perhaps to be an effective element in the campaign. While now and then mention is still heard of Senator Hatten and Chairman W. D. Connor as possible candidates for governor, it is becoming

more firmly established that the fight is between Davidson and Lenroot for the republican gubernatorial nomination. Lenroot is backed by Senator La Follette and the latter's federal patronage and Wisconsin working machine. This patronage is small on account of the greater influence at Washington of Senator Spooner, but it is considered large enough to lubricate the machine at home. Governor Davidson has practically nothing in the way of patronage. Before leaving the state La Follette, as governor, robbed his successor of the state patronage by securing the enactment of the civil service merit law. But Governor Davidson is backed by innumerable friends, and it is daily more plainly appearing that the strength of the republicans all over the state is combining for the defeat of Lenroot, even by such a firm believer in La Follette's principles as is Davidson, would be considered a stinging defeat to the La Follette machine.

## AN ANGLO-AMERICAN MINING CONVENTION

Members of American Engineering  
Institute and English Iron Steel  
Institute Meet.

[SPECIAL TO THE GAZETTE.]  
London, May 22.—Arrangements have just been made to hold a joint meeting of members of the American Institute of Mining Engineers and of the Iron and Steel Institute of Great Britain in London next July. The Lord Mayor has consented to act as chairman of the local reception committee, and a varied program of receptions, visits and excursions is being arranged. After the conference a tour will be arranged for the American visitors to Newcastle, Glasgow and other centers. The Americans will be invited also to take part in the summer meeting of the Institute of Mechanical Engineers to be held at Cardiff.

He who thinks he can find in himself the means of doing without others is much mistaken, but he who thinks that others cannot do without him is still more mistaken. A merchant rarely makes the first mistake—never, if he is sane; but when he concludes to curtail his advertising, it is a sign that he is falling into the second.

With 1,000,000 tons of steel rails ordered, it looks as though the railroad will continue to do business.

The Rockefeller hospital in New York City, costing \$350,000, has just been dedicated and opened to the public.

No hurry about selecting candidates for state officers. Will be plenty of men to choose from when the campaign is well in hand.

Senator La Follette is trotting in a class by himself in Washington. The epidemic of reform has not yet infected the capital city.

Senator McGillivray is sawing wood and buying more land up in the north woods. He don't propose to be out of a job after election.

There will be no legal proceedings against Mr. Houser. He belongs to the faction of the party which is immune from annoyances of that kind.

The rate bill as it passed the senate is said to please Reformer Bacon of Milwaukee. If that is the case it ought to satisfy the most radical element in the country.

The fires in northern Wisconsin have made one hundred families homeless. A disaster as appalling to them as the San Francisco calamity. The people of the state can afford to do something for these unfortunate people. Will the governor indicate some plan of action.

CONTINUED PROSPERITY.

Henry Glaws, the veteran New York banker, furnishes the following statistics on imports:

Our foreign trade is growing at an almost record-breaking pace. The imports of domestic products in April were \$107,000,000, or \$12,000,000 larger than a year ago. In fact, they have only been exceeded three times. Our exports in April were \$144,500,000, or \$16,000,000 in excess of last year. This leaves the trade balance for the month \$37,000,000 in our favor, compared with \$33,000,000 a year ago. For the ten months of the fiscal year the excess of exports over imports has been \$467,500,000, or \$128,000,000 more than a year ago. Our gold imports in April were \$15,000,000, compared with \$2,500,000 a year ago; and for the ten months of the fiscal year ending April total gold imports have been \$59,000,000, or \$10,000,000 in excess of the same time last year.

In speaking of railroads he says:

"Railroad earnings also continue very encouraging. Fifty-six roads in the month of April reported gross earnings of \$52,400,000, an increase of nearly 12 per cent over last year. These are surprising figures in view of the disturbance caused by the coal strike, which, however, may be more seriously reflected in later returns. Industrial activity continues unabated."

Enormous orders have been placed for steel rails, some of them for delivery as far ahead as 1907. There are 730,000 tons already on the order books of American rail mills, and other important contracts are pending, which will soon bring the total up to 1,000,000 tons. This means continued prosperity for the steel mills for months to come. The railroads are certain to consume large quantities of material not merely for improvements but also for new mileage. The extensive outlays of the Pennsylvania and New York Central for accommodation of New York traffic give some idea of what is being done in this direction. Evidently these gigantic corporations have unlimited faith in the future of New York city, or such vast outlays which cannot be immediately profitable would not be undertaken. The manufacturers of the country in every line of business are crowded with orders, and every man who is disposed to work finds employment at good wages.

The country is not only prosperous, it is resourceful as well. The San Francisco loss meant the wiping out of a large block of capital, as effectively as though it had been lost in the bottom of the sea, but the people came to the rescue to relieve immediate suffering, and capital at home and abroad is freely offered to rebuild the city.

It is a privilege to live in this favored land during this era of prosperity, and why any intelligent man should fail to appreciate this privilege is a problem more perplexing than the rate question or Panama canal.

THE SHIP SUBSIDY BILL.

The ship subsidy measure, so freely discussed a few years ago, has again come to the front, and if reports are true the measure is about to receive favorable consideration in the House.

The revival of interest is largely due to the fact that President Roosevelt favors the scheme and is using his influence in favor of the measure.

While it is not popular to oppose the President on any proposition, yet there are many conservative people in the country who do not believe it good policy to appropriate the people's money to establish and maintain a merchant marine.

It savors of class legislation and while of special interest to the seaboard states, the west is practically a unit in denouncing the plan. The argument is used that the nation should have some pride in the matter, and that the nation's trade can be extended very materially by a fleet of American vessels.

So far as pride is concerned, the great mass of people never visit a foreign country and never will. A few who take an ocean voyage care but little what flag floats at the masthead and have no desire to invest any money in ocean liners.

An American merchant marine, if ever installed, will be largely manned by foreigners, for the wages paid are no inducement to American seamen. If there was any money in the enterprise American capital would not be slow to invest.

A few years ago J. Pierpont Morgan invested several million dollars in a fleet and attempted to consolidate the Atlantic fleets, but the fight on "mergers" was commenced shortly after and the Morgan enterprise went up in thin air.

The government can not afford to speculate with the people's money and the senate will be slow to endorse the ship subsidy scheme, however much the President may desire it.

TWICE WEDDED BY  
A BELOIT JUSTICE

Mr. and Mrs. Asa Carpenter of Delavan Neglected to Get a License and Permit.

John Hackett Adams of Beloit, justice of the peace, performed his first marriage ceremony on Saturday and after he had finished with it found it necessary to send the groom hotfoot to Janesville for a license and special permit. Afterwards he went over the ceremonial again with the young people who were none other than Asa Carpenter and Cora Towne of Delavan. The second time the knot was tied it staid tied. Judge Adams laid himself liable to a \$500 fine but prompt action saved him from punishment. The young couple will doubtless live happily ever afterward. It is reported that this colloquy took place immediately after ceremony No. 1.

Judge Adams: "Have you a marriage license?"

He and She: "Why no; we thought we would buy one later."

Judge Adams: "What? (This in screams.) Haven't you a license? Why you people aren't any more married than a pair of rabbits."

The groom was hustled to an interurban car, Janesville-bound, while Judge Rosa, called in consultation, telephoned Judge Sale and asked for a special permit for the couple to wed at once. After it was all over the Judge bought copious draughts of soda water for the crowd of onlookers who had gotten wind of what was going on and arrived on the scene to witness the happy finale of the little farce-comedy.

LOCAL BRIEFS.

Many Oddities: Two more young men were made members of the Rusk Lyceum last evening and appeared at school this morning with the usual oddities in dress which is part of the initiation. NOT A TRUST.

Mr. Smith denies in positive and unequivocal terms the truth of the current report that the National Cigar Stands Co. is in any way connected with the American Tobacco Co., popularly known as the "tobacco trust," or its subsidiary corporation, the United Cigar Stores Co.

The fact of the matter is, said Mr. Smith to a Gazette man, "the National Cigar Stands Co. was organized by 1,050 retail druggists who are the recognized leaders in their respective towns. Instead of being allied with the 'tobacco trust' and the United Cigar Stores Co. we are direct competitors of the latter in the retail field. Our company handles its own special brands manufactured for us in factories where we can get the best goods. Quite a number of the brands are UNION MADE and even some of the BOXES are Union Made. One of our leading brands is the 'BLACK &amp; WHITE,' a seed and Havana cigar for 5c, the equal of any 10c brands."

The National Cigar Stands Co. certainly have a fine line of cigars and the Smith Drug Co. is to be congratulated on securing the agency for these cigars.

In the franchise granted the railway by the city of Beloit, April 22, 1901, the company agreed to extend its line to Delavan Lake within three years after the time of the passage of the ordinance, and in case of failure, to forfeit to the city the sum of one thousand dollars. Shortly prior to the expiration of the three years the common council extended the time for two years, upon application of the railway company, which time has now expired.

THE AMERICAN BOY FOR JUNE

THE AMERICAN BOY is bidding high for public favor when it runs, as it does in its June number, stories by Edward Stratemeyer, Horatio Alger, Jr., Clarence Hawkes, the blind naturalist, J. L. Harbour, Tudor Jenks, Ernest Gilmore, Will Levington Comfort, Helen Leah Reed, and Fred Myron Colby.

Among the matter of special interest in this number, outside of stories by the prominent writers named, are sketches of Senator Beveridge, Auguste Rodin, John Christian Watson, Prof. John Milne, and the late Paul Laurence Dunbar; the story of a Wild Elk Round-Up; instruction as to How to Play Baseball, and How to Select and Use Firearms with Safety; a description of Uncle Sam's Flag Shop; a biographical sketch of Henry Ward Beecher; and many items under the head of Puzzles, Mechanics, Chemistry, Biography, Stamps, Coins, Photography, and other hobbies in which boys are interested. There are in addition over 70 illustrations.

With every purchase of \$4.00 or over in our Children's Department we give the above Magazine free for 6 months.

**NATIONAL MANUFACTURERS'  
MUTUAL INSURANCE CO. OF  
JANESVILLE IS LAUNCHED**

DIRECTORS AND OFFICERS WERE  
ELECTED AT A MEETING HELD  
LAST EVENING.

OVER \$300,000 IN POLICIES

Has Already Been Subscribed in  
Many Sections of United States  
and Canada—H. J. Cunningham,  
ham Named Secretary.

With policies amounting to \$300,000  
already subscribed in several sections  
of the country and \$100,000 in sight  
before the expiration of the present  
year, the National Manufacturers' Mut-  
ual Insurance Co. of Janesville, Wis.,  
was launched here last evening. The  
new company was assured the back-  
ing of the National Association of  
Box Manufacturers by a resolution  
passed while that body was in  
session at Chicago last  
February. At that time it  
was recognized that another big mut-  
ual company was needed in the United  
States to handle the business of  
the box manufacturers and a contest  
among the large agencies to deter-  
mine which of them should organize  
the new corporation resulted. To the  
winning efforts of the Herbert J. Cun-  
ningham agency, extending over a

SECRETARY H. J. CUNNINGHAM  
period of more than a year, must be  
credited the landing of the headquar-  
ters of the big organization in this  
city.

Immense Business of Box-Men  
Some idea of the immense propor-  
tions of the industry which is behind  
this new movement may be gleaned  
from statistics which show that forty  
per cent of all the lumber cut in this  
country goes into "packages," that is  
to say the barrels, boxes, and crates  
put on the market by the box manu-  
facturers. It follows that they are  
largely represented in the manage-  
ment of the new insurance company.  
Of the directors named last evening  
five are from Janesville and four are  
big manufacturers in various sections  
of the United States.

Personnel of Directors  
The board of directors named last  
evening consists of the following: F.  
J. Kress, president of the Kress Box  
Co. of Pittsburg, Pa.; Joseph Weber,  
Jr., of Janesville; R. L. Jones, treas-  
urer of the Merschon, Scheutte, Par-  
ker & Co. concern of Saginaw, Mich.;  
W. F. Brown, of the firm of Dodge,  
Bliss & Co., lumber and box manu-  
facturers, of Jersey City, N. J.; I. J.  
Estos of Janesville; A. E. Bingham  
of Janesville; B. W. Porter of Green-  
field, Mass., president of the New  
England Box Co., which is largely in-  
terested in the lumber trade and op-  
erates box factories in several sec-  
tions of the country; Herbert J. Cun-  
ningham and George Kimball of Janes-  
ville.

Head Officers  
The directors, immediately after  
they had been chosen by the subscrib-  
ers, for insurance, met and elected  
the following officers:

President—F. J. Kress of Pittsburg.  
Vice Pres.—R. L. Jones of Saginaw.  
Treasurer—H. J. Cunningham.  
Secretary—A. E. Bingham.

First Annual Meeting  
The new company is organized un-  
der the laws of Wisconsin and its  
headquarters must always remain in  
this state. It is organized under  
what is known as the Miller and  
Manufacturers' law and is the first  
mutual company licensed to do busi-  
ness in all parts of the United States,  
which was over formed in the badge  
state. Directors and officers are to  
be elected at the annual meeting to  
be held in the month of September.  
At the one to be held this fall the par-  
ties named last evening will undoubt-  
edly be re-elected. The time will be  
confined to manufacturing properties  
and the business of writing policies  
will be commenced in earnest early  
in June.

How Business Will Be Handled.  
The business of mutual companies  
is quite generally known, is han-  
dled by large agencies and the mid-  
dlemen and small agents are elimi-  
nated. The Herbert J. Cunningham  
agency of Janesville, for instance, is  
the representative for the territory of  
Wisconsin and Minnesota, of the fol-  
lowing companies: The Central Manu-  
facturers' of Van Wert, Ohio; the  
Lumbermen's Mutual of Mansfield,  
Ohio; The Indiana Lumbermen's Mut-  
ual of Indianapolis; the Lumber Mut-  
ual of Boston; and the National Mut-  
ual of Omaha. The representatives  
of these companies elsewhere in the  
United States will handle the business  
of the new Janesville company, so  
that there will be no laborious pro-  
cess of getting into immediate touch  
with prospective subscribers in every  
section.

To Be Kept Here.  
The suggestion was made to Mr.  
Cunningham this morning that after  
the business of the new company shall  
have grown to such proportions as  
to make it a factor in insurance cir-  
cles a possible effort to move the  
headquarters to a larger city might  
have to be reckoned with. "In time  
it means a big thing for Janesville  
and it is likely to stay in Janesville,"  
was his reply, and he made this fur-  
ther statement: "The directors are  
elected, of course, by the subscribers.  
Janesville manufacturers will be an

important contingent in the manage-  
ment of its business. There will per-  
haps be more policy-holders in Janes-  
ville than in any other single city in  
Wisconsin. Moreover, the headquar-  
ters of the company must remain in  
this state. So I think there is little  
apprehension to be entertained on  
that score."

Methods of Operation  
Most of the old, established mutual  
companies pay from 25 to 30 per cent  
dividends yearly—that is to say, they  
pay back that percentage of the pre-  
miums paid in. The guarantee  
against fire loss rests in the premiums  
paid in, and contingent assets. Each  
member is liable for three times the  
original amount of his premium, so  
that if a company starts out with  
\$15,000 cash assets it has \$45,000 re-  
serve assets. The possible loss on  
any individual plant is limited to \$5,  
000. An effort is made to get the  
best possible risks and over 60 per  
cent of the manufacturers represented  
in the subscriptions with the Janes-  
ville company are provided with  
sprinkler equipments. Some of the  
money paid in goes to building up a  
reserve fund and there are some ex-  
penses aside from the payment of  
losses. But the agents are paid com-  
missions amounting to less than one-  
half of those paid to representatives  
of stock companies and there are no  
big salaries for the officers. The of-  
ficers receive but nominal salaries,  
if any. The new undertaking is not  
regarded as a hazardous one, so far  
as the liability of subscribers is con-  
cerned. Mr. Cunningham says that  
of the five companies he represents  
here not one in any emergency has  
ever had to assess its policy-holders,  
and one, the Van Wert, Ohio, com-  
pany, has carried about \$200,000  
worth of business in Janesville for  
the past eighteen years.

Expert Monument Lettering at Mrs.  
F. A. Bennett & Co's.

Almost any workman can cut the  
letters used in ordinary monument  
work, but when it comes to doing  
something out of the regular line of  
work they fail. A three-quarter-inch  
raised letter in Barre granite is con-  
sidered a very difficult letter to cut  
by expert workmen and very few are  
cut outside of the large cities. F. W.  
Frederick, who has charge of this de-  
partment for Mrs. F. A. Bennett &  
Co., is engaged at present in cutting  
one of these inscriptions on a large  
Barre granite monument for Mr. Chas.  
Bullard of Evansville. The work is  
beautiful and it is well worth any-  
one's time to step in and see how this  
extremely difficult class of lettering  
is done. In securing Mr. Bullard's  
contract Mrs. Bennett came in com-  
petition with some of the biggest and  
best firms in the state. Over two  
carloads of monuments have been  
erected by this firm in the last two  
weeks and their show room is again  
filled with an immense new stock, all  
new and original designs. This firm  
pays cash for all their goods and the  
buyer gets the benefit of the discount.

### PRESS COMMENT.

**Small Wonder.**  
Chippewa Independent: The Northwestern Life Insurance company, according to the sworn testimony of its officers, had at one time over \$2,000,000 in loans upon which the officers and relatives of the company were drawing interest. Is there any wonder that the policyholders in very many cases when they come to settle get back barely what they had paid in.

**Different Sort of A Horse.**  
Oshkosh Northwestern: If the so-called Houser exposure had been made in regard to an official who belonged to the other faction, however, it is easy to believe The Milwaukee Free Press would have shouted its loudest in its demands that the probe be sent to the bottom. When one of "our fellows" is pricked, it is a "hoss of a different color."

**He's Sure Something's Coming.**  
Exchange: Mr. George Grassie, the "dope" editor of The Milwaukee Wisconsin, has got around to his original motto, which is "Watch Hatten."

**Between The Lines.**  
Oshkosh Northwestern: Reading between the lines of the message sent by Senator La Follette to the recent Lincoln club banquet at Milwaukee, The Milwaukee Journal declares it is plain as pikestaff that the junior senator is still for Lentroot, and that he will go into the fight with the odds against him, and practically against the field. This leads The Journal to come to the further conclusion: "It would look as though he would be

routed horse, foot and dragons, but a whole lot of us have entertained thoughts of that kind before now, only to grow very weary, counting up his majorities on election nights."

**Vitriolic Vituperation Of Vitiosity.**  
La Crosse Tribune: The appending "scorcher" from the quill of "Silver Joe" Kronkel, the editorial life of the Superior Leader-Clarion, is hurled at the Duluth News-Tribune: "Probably the most vicious, unprincipled newspaper that ever foisted itself onto any community is the News-Spittoon, published in Duluth. It seems to be utterly impossible for that vicious, lying, dirty rag to tell the truth, even when the truth would suit much better than the dirty, damnable, infernal lies it hands out from day to day. In reporting the action taken by the council Tuesday night on the water situation, that dirty rag says: 'etc.'"

**Memorial University.**  
Fond du Lac Bulletin: Memorial university, at Mason City Iowa, should be firmly established. It will give throughout its life special attention to history pertaining to our own country. Of course, it will not ignore ancient Rome and old Greece, but its chief aim will be to turn out a class of students who are thoroughly familiar with everything pertaining to their own country. It would seem as if that is a desirable thing to accomplish. This great educational enterprise was undertaken very largely by the children of ex-soldiers. They have made a great success of it. They are building up a great educational institution. It should not lack for means with which to go on building and making it a college that ranks with the best. The name is right, a Memorial university. There is excuse for building such a memorial, if there is not a demand, and few there are who will contend that there is not.

**Both Sorts Needed.**  
Exchange: In the current issue of The Cosmopolitan David Graham Phillips, who has been exposing "the treason of the senate," paints Senator Spooner as a very devilish sort of a man, and La Follette as an angel without wings. Even so, however, perhaps it is a good thing for the state to have both sides properly represented "at court."

**Visible Supply of Grain.**  
New York, May 22.—The visible supply of grain Saturday, May 19, as compiled by the New York Produce exchange, was as follows: Wheat, 33,613,000 bushels; decrease, 2,223,000; corn, 2,258,000; decrease, 542,000; oats, 10,548,000; decrease, 1,953,000; rye, 1,494, decrease, 76,000; barley, 1,457,000, increase, 22,000.

**Fire on Cotton Docks.**  
New York, May 22.—Fire started Monday night on the American cotton docks between St. George and Tomkinsville, Staten Island. The fire was under control soon after midnight, the flames having been confined to the warehouses containing cotton. The damage is estimated at \$250,000.

### PLAN TO MAINTAIN PEACE ON ISTHMUS

UNITED STATES PREPARES TO ASSIST LOCAL POLICE.

QUIET ELECTION IN SIGHT

Effort on Part of Liberal Leaders to Promote Riot and Revolution at Panama Is Checked.

Washington, May 22.—More than 600 marines will confront liberal leaders on the Isthmus of Panama in case they attempt to promote riots and revolution at the time of the election in Panama on June 20. Although the canal zone is under the secretary of war, there is no indication that the war department will have any troops near the Isthmus at the time of the approaching election, and Secretary Taft must rely upon the marine corps to protect the canal zone.

Only 200 marines are on the Isthmus at present. These are in command of Maj. C. G. Long. More than 400 marines are on the Columbia, which is on its way to Guantanamo and will be within easy call in case the politics become stormy in Panama. This large detachment of marines is in command of Maj. Lejeune. The Marinehead, which is now sailing southward down the Mexican coast, and is only a few days from the Isthmus, carries only a small detachment of marines and cannot add much strength to any land expedition which may be necessary to quiet the political situation which is so threatening.

**Police Force Is Strengthened.**  
The zone police force has been strengthened materially and is so well equipped that it is in reality a miniature army and is ready for service at any time. Under the leadership of the well-trained marines it is believed the police force will be able to quell any disturbances which may arise.

The Panama railway affords such excellent transportation facilities that troops can be hastened to any possible scene of trouble in the canal zone without delay. This insures the protection of all American property interests.

Secretary Root and Secretary Taft have also made it clear that they will take a hand in disturbances outside of the zone, and if the liberals begin any movement against the present government of Panama it will be with full knowledge that the United States expects to intervene in disturbances which will delay the canal work or affect it in any way.

**Sails with Six Hundred Marines.**

lers with 600 marines aboard. All day Sunday preparations were in progress for the hasty departure of the cruiser. It is understood the vessel will go to Guantanamo and thence to Santo Domingo.

The situation in Panama has become critical, and it is reported that the authorities at Washington have been driven to take a hand. They find their justification for armed interference in the necessity for preserving the safety of the canal zone.

It is known that the sentiment against the United States in certain quarters of Panama is strong, and that the landing of American marines is not unlikely to stir the more radical of the people into a heat of passion which may result in hostilities, whatever the object of the Americans.
